CocoBaba:

[CocoBaba](#)- CocoBaba is the new all-natural, vegan skincare line for women founded by Emma Heming Willis. CocoBaba was originally conceptualized when Emma was pregnant with her first daughter and was in search for an all-natural coconut oil-based product line to nourish and soothe her skin but could not find one. After 4 years in the making, the brand finally launched earlier this year – and while it's targeted toward moms and moms-to-be, it's great for anyone! As summer approaches and we spend more time outside, it's time to pay extra attention to our skin and make sure it's nourished and protected to maintain that beautiful summer glow all season long!

All CocoBaba products are made with pure, certified organic coconut oil, and are 100% vegan, dermatologically tested, and completely free of silicones, parabens, and mineral oils. The Coconut Butter Mousse is a natural, effective way to nourish skin with this whipped blend of coconut, chia, sunflower, and jojoba oil. The Coconut Body Oil is silky but never greasy, this natural beauty secret uses 100% raw certified organic coconut oil to lock in moisture. And finally, the Coconut Oil Scrub is an all-natural exfoliant made with real coconut husk and apple seed. **\$54.99**
